

GDPR STATE OF COMPLIANCE

OUR GDPR APPROACH

Our processing activities have been mapped and entered in the register of “processor” and “subcontractor” processing activities.

Technical security measures (encryption, pseudonymisation...) and risk management procedures have been implemented within the framework of a “security reference system” exhibiting a high level of guarantees. These devices are regularly tried and tested.

Our staff has been trained and made aware of the impacts of GDPR. We have adopted an approach of “Privacy by Design” in compliance with the best practices recommended by the CNIL [French Data Protection Authority] in order to ensure the protection of the private life of all parties.

A Data Protection Officer (DPO) has been appointed to ensure that we respect our obligations and to advise us on the measures that should be adopted in order to maintain a high level of compliance and protection of individuals.

"DATA FRIENDLY" SERVICES

Performance of a thorough impact analysis relating to the protection of the data on the platform

Performance of intrusion tests on a regular basis

Robust and proven safety devices to ensure the confidentiality and the availability of data

News ticker ("crawl") displaying information and measures for obtaining consent in accordance with GDPR requirements

Provision of tools for customization in our clients' fields:

- Standard privacy policy
- Standard general conditions of use

A DATA COMPLIANCE AT THE SERVICE OF OUR CLIENTS

Availability of a **"GDPR Compliance Pack"** to accompany our clients in their own approach towards compliance including:

A Data Protection Agreement (DPA) covering the use of our services in compliance with CNIL requirements

A pre-filled processing activity register form to be included in your register

A prior-impact analysis on the protection of the data (pre-PIA)

A dedicated communication channel with our DPO

A WELL-KNOWN AND CERTIFIED APPROACH

Accompaniment in the approach
towards compliance by a
specialized and triply accredited
law firm

OpenDataSoft obtained the
GDPR Governance Label
issued by the CNIL

(French National Commission on Informatics and Liberty)
